

BK8040 PREMIUM AIR DISC BRAKE PADS

FMVSS 121
approved for
23,000lb. axles

Safety, Performance, Reliability

Bremskerl air disc brake pads are **developed and engineered in Germany** from over 80 years of experience. Our brake pads are formulated with proprietary high performance materials and are extensively dyno and field tested under various operating conditions to provide you with excellent stopping capability, consistent braking effort and extended pad and rotor life.

BK8040 brake pads are
LeafMark Level "B" compliant

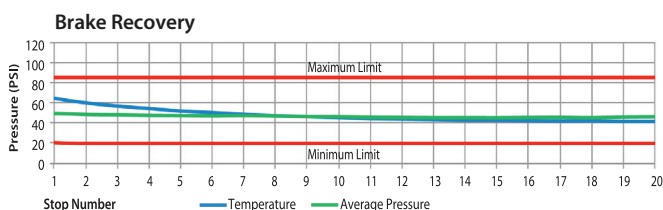

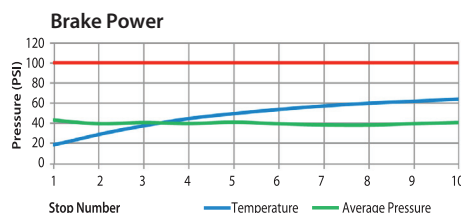

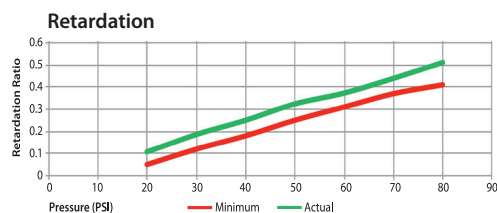

Key Features:

- "Green Coating" assists in bedding-in brake pad after replacement
- Wire mesh and adhesive layer provide secure attachment to backing plate
- Steel backing plate with corrosion resistant coating
- Installation hardware included in every kit
- 100% Non-Asbestos, RoHS and REACH compliant
- Visual wear slot indicates when brake pads need to be replaced

Longer Service Life, Lower Cost Per Mile

- Excellent stopping power
- Extended pad and rotor life
- Low noise
- Consistent braking effort and pedal feel
